Mr. [redacted]  
Radio Monitoring Station

Subject: HARDWARE

25X1A9a

Dear Mr. [redacted]:

25X1A5a1  
We quote the following letter dated January 21  
from [redacted]:

"This is to certify that all of the finished hardware I propose to furnish on the above job will meet government specifications as shown in Federal Specifications FF-P-101b, FF-H-106a, FF-H-111a, FF-H-116a and FF-H-121a.

"I have letters in my file from all of the intended suppliers guaranteeing this.

"The locks are to be manufactured by the Schlage Lock Company with the exposed knobs and trim of solid aluminum. This finish is anodized and will not rub off or tarnish. The butts are primed coated as specified and of the guage metal as shown in specification FF-H-116a. The push bars and kick plates, door stops, holder, etc. will be of solid aluminum where possible, otherwise they will be of solid brass or bronze, dull chrome plated. The door closer and floor hinges are as specified.

25X1A5a1

[redacted]  
Yours very truly,

25X1A5a1
